Division: Area Models and Distributive Property

Solve each division problem by showing an area model, the distributive property, and long division method.

1. $47 \div 4$	2. $81 \div 9$
3. $28 \div 3$	4. $77 \div 7$
5. $32 \div 3$	6. $47 \div 2$

Understanding Multiplication Using Arrays

Directions: Look at the arrays below and write two multiplication facts to represent them.

Example:  $2 \times 2 = 4$
 $2 \times 3 = 6$

-  _____
-  _____
-  _____
-  _____

Distributive Property (A)

Use the distributive property to simplify each expression.

- | | |
|-----------------|----------------|
| $2(4 + 9w)$ | $-8(6x + 3)$ |
| $-4(-4d - 5)$ | $-6(8p + 3)$ |
| $2(3v - 8)$ | $(2 - 5m)(-5)$ |
| $4(-6z + 4)$ | $-9(n - 4)$ |
| $(-5d + 1)(-2)$ | $-4(9k + 9)$ |
| $2(-5 - 7j)$ | $(3b - 2)(-3)$ |
| $-3(3 - 8j)$ | $-(-5 - 3v)$ |
| $-8(2 + 9v)$ | $-9(8 - 2h)$ |
| $(-5f + 8)4$ | $(7x - 8)(-1)$ |
| $-(6 - 4p)$ | $9(8 + 5t)$ |

Name : _____ Score : _____
Teacher : _____ Date : _____

Simplifying Algebraic Expressions

- | | |
|---------------------|-----------------------|
| 1) $-3(9 + 6w) + 8$ | 6) $2(-4 + 8n)$ |
| 2) $4(-5y - 9)$ | 7) $-8(-3 + 6w) - 7w$ |
| 3) $9(-5 + 3c)$ | 8) $7(-9 - 5)$ |
| 4) $-3(6 - 5f)$ | 9) $-6s - 7(2 + 9q)$ |
| 5) $8(-9p - 2) + 7$ | 10) $-6 + 4(-9y + 8)$ |

Then you will find links to make some commission-type work sheets, intended for grades 6-8. Sometimes, the worksheet generated is not exactly what you want. => Learn more and mathetic and visual work sheets distributive property of the distributive property of multiplication multiplication in this worksheet, children learn how much distributive property is and how to use it to solve problems to solve problems of multiplication. Some of these working sheets are absolutely free. PDF work sheets meet the learning requirements of children in grade 3 to grade 6. Students develop understanding solving equations and inequalities intuitively before introducing formal solutions. The generator includes only very simple problems with linear expressions. To obtain the PDF worksheet, simply press the boton entitled "Create PDF" or "Do a PDF worksheet". Word problems relate to algebra with family situations, helping students understand abstract concepts. Convince in patron through Patreon or donate through Paypal. Do you want to help support the site and eliminate ads? The distributive property of multiplication tells us that $5 \times (2 + 3)$ is the same as $5 \times 2 + 5 \times 3$. It can generate the worksheets, either in HTML or PDF format, they are easy to print. To obtain the worksheet in HTML format, press the "viewer view" or "make an HTML work sheet". We hope to add more types of problems later. In this worksheet, students practice group problems in different ways. Basic instructions for worksheets Each working sheet is generated randomly and, therefore, is unique. In these worksheets, students use distributive property to multiply 1 by Dishes number. Books 8-10 extend coverage to the real number system. Books 5-7 introduce rational numbers and expressions. The new concepts are explained in a simple language, and the examples are easy to follow. In this work sheet, students reorganize the number in each multiplication problem, then solve. They solve. Worksheetslears and practices basic facts up to 10 or 12 with these printable games, lessons and working sheets. addition. The worksheets of printable multiplication properties in this página contain commutative and associative properties of multiplication; Distributive property; identification of the equivalent declaration; Inverse and multiplicative identity; and more. Each problem has 3 number. You are here: Starting sheets $a^m \times a^n = a^{m+n}$ $a^m \div a^n = a^{m-n}$ Factoring/distributive property with this work sheets generator, you can make customizable work sheets for distributive property and factorization. Into again! To obtain a different worksheet using the same options: PDF format: return to this página and press the boton again. Students begin their algebra study in books 1-4 using only integers. This has the advantage that you can save the worksheet directly from your browser (choose File \rightarrow Save) and then edit it in Word or other word processing program. These worksheets are especially intended for pre-algebra and algebra 1 courses (degrees 6-9). HTML format: Simply update the work sheet ping in your browser window. On this work sheet, your child will work with the property distributed in equations using the four operations. The response key is generated automatically and is placed in the second page of the file. We can use this to transform a difficult multiplication (3×27) in the sum of two lesser multiplications $(3 \times 20 + 3 \times 7)$. Additional toilet and instructions (allowed HTML) key to the associative (basic) property according to the associative property of it doesn't matter how the number is grouped in a problem of multiplication given. grouped.
